

# Shaping the future

## Diesel Mechanic

As pioneers in mining and metals, we produce materials essential to human progress. Our talented workforce uses industry-leading mining processes and technology to ensure our operations are safe, low cost and efficient.

A vacancy exists for a Diesel Mechanic in the Haultruck Maintenance section of the Mining department. The successful candidate will be responsible for delivering the right level of quality and effective maintenance and service to customers on the equipment in good time and at acceptable levels of cost and efficiency and in compliance with Rio Tinto standards.

### Key performance areas

- Maintain health, safety and environmental standards;
- Maintain, repair, adjust and overhaul relevant equipment;
- Installation of relevant equipment;
- Breakdown repairs of relevant equipment;
- On the job training;
- Administration.

### Minimum qualifications

- Grade 12 with Mathematics & Science and an E-symbol in English;
- NTC II and Trade Theory (Diesel Mechanic);
- Trade diploma;
- Three years' experience including apprenticeship training;
- A valid code BE driver's licence;
- A valid code C driver's licence will be an added advantage.

### To apply

Please submit your curriculum vitae and certified copies of qualifications with a cover letter to e-mail: [RUL.recruitment@riotinto.com](mailto:RUL.recruitment@riotinto.com)
