

# Shaping the future

## Foreman Processing Operations

A vacancy exists for a Foreman Processing Operations in the Final Product Recovery section reporting to Superintendent Recovery within the Processing department. The successful incumbent will be responsible for supervising a team of operators and responsible for concentrating, drumming and packing of the final product, to ensure a no non-conformance to the standard in the preparation of our product for our customer.

### Key performance areas

- Maintain health safety and environment standards;
- Develop and maintain an effective shift team by participating in the selection and development of team members;
- Review operating cost reports, discuss monthly cost reports with subordinates and develop cost saving initiatives for overspent cost elements;
- Monitor and review processes and all materials used within all areas under the incumbent's control;
- Coordinate operational and maintenance activities in the event of breakdown.

### Minimum qualifications

- Grade 12 certificate with 20 points and an E-symbol in English;
- Five years' experience in a metallurgical processing plant environment as an Operator.
- Two years' experience in a supervisory role;
- Valid code BE driver's licence.

### To apply

Please submit your curriculum vitae and certified copies of qualifications with a cover letter to e-mail:
