

Shaping the future

Engineer: Civil

An exciting opportunity exists for an Engineer: Civil reporting to the Superintendent Projects. The primary purpose of this role is to provide functional design solutions, fulfil quality requirements and ensure that all quality system procedures are adhered to as documented.

Key performance areas

- Adheres to all Health, Safety and Environmental (HSE) policies and procedures;
- Manage contractors and other resources to implement projects by controlling project-scope, budget, schedules and resources;
- Schedule and plan all aspects of projects through all phases from initiation to closure;
- Responsible for detailed system design and implementation of discipline specific projects;
- Responsible for continuous analysis and risk identification of the design system to ensure continuous improvement on technology choices;
- Initiate cost saving ideas aimed at reducing overall area and mine costs; and
- Recommends improvements to processes and discuss with relevant parties involved in the process.

Minimum requirements

- Grade 12 and a recognised Bachelor Engineering (B Eng) degree/Bachelor of Technology (B Tech) degree in Civil Engineering;
- A minimum of three years post qualification working experience;
- Code B (08) driver's licence.
