Working for Namibia

Shaping the future

As pioneers in mining and metals, we produce materials essential to human progress. Our talented workforce uses industry-leading mining processes and technology to ensure our operations are safe, low cost and efficient. We have opportunities available:

Superintendent, Workshops

An exciting opportunity exists for a Superintendent: Workshops reporting to the Manager Maintenance. The primary purpose of the role is to provide engineering services for equipment and machinery brought to the workshops for repairs and overhaul.

Key performance areas

- Ensure a zero harm culture by demonstrating commitment to reduce personal injuries and implement HSE improvement projects, including but not limited to:
 - conducting area audits and inspections;
 - risk assessments;
 - perform personal safety interactions; and
 - manage critical controls and attend all relevant safety training.
- Monitors, review, modify and enforce maintenance schedules and standards;
- Audit compliance;
- Forecasts – equipment/machinery replacements and scheduled maintenance;
- Audits contractors' performance;
- Identify problems impacting on quality, analyse/evaluate and establish corrective measures;
- Set, implement, monitor and take remedial steps where necessary of new standards;
- Set quality control plans and inspection regimes of major equipment and monitor the compliance thereof;
- Cost management; and
- Continuous improvement.

Minimum qualifications

- Grade 12 with 20 points;
- a recognised B.Sc./B.Eng/B.Tech. degree in Mechanical, Mechatronics, Electrical or Electronic Engineering;

- minimum five years' working experience in a process plant environment of which three years should have been in a supervisory position;
- Registered as a Professional Engineer or Incorporated Engineer will be an added advantage;
- A code BE driver's licence.
