

EXPRESSION OF INTEREST

Provision of drilling services

Reputable and experienced Drilling Contractors are invited to submit an Expression of Interest (EOI) for the Provision of Drilling Services at Rössing Uranium, located 60km from Swakopmund.

Specification of services

The drilling contract will be for the following drilling services:

- Reverse Circulation (RC) drilling for Resource Evaluation and Piezometer drilling,
- Down-the-Hole drilling for Pit Wall Control drilling,
- Diamond drilling for Geotechnical requirements, and
- Percussion drilling.

General requirements

References/technical capability

- Submit proof and list recent projects of a similar nature and magnitude carried out.
- Submit Proof of Qualifications and experiences of human resources that are available for the execution of such works.
- Submit proof and lists of drilling equipment currently at your disposal.

Financial stability

- Submit Proof of Company annual turnover for the last two years and any other relevant financial information.

Health, safety and environment

- The contractor and subcontractors are required to adhere to all legal health, safety and environment standards and regulations and will be subject to HSE requirements set by Rössing Uranium.
- Contractors to submit proof of their HSE policies and standards as well as proof of HSE performance record for the past two years.

Please access the Rössing website www.rossing.com for more information on this EOI.

Expression of Interest documents should be submitted by email to rul.tenders@riotinto.com

Enquiries: Florence.Uazukuani@riotinto.com
Tel +264 64 520 2712

Closing date for the EOI submission:

18 August 2017 at 16.00, local time.

Tender documents

Following receipt of EOI from companies and a selection of suitable suppliers, these suppliers will then be invited to participate via a web-based sourcing engine used by Rio Tinto. Tender documents with detailed scope of work and all other relevant information will only be accessible following selection and access to this system.
